# American Journal of Physiology: Regulatory, Integrative and Comparative Physiology

KEY TO CATEGORIES: **1.** Comparative Physiology *Regulation and Integration in:* **2.** Autonomic Physiology; **3.** Behavior; **4.** Cardiovascular Physiology; **5.** Endocrinology; **6.** Energetics; **7.** Fluids and Electrolytes; **8.** Functional Morphology; **9.** Ingestion; **10.** Periodicity; **11.** Respiration; **12.** Temperature

**No. 1. JULY 1991**

CATEGORY

**2,4** Autonomic mechanisms underlying area postrema stimulation-induced cardiovascular responses in rats
*A. V. Ferguson and P. Smith* R1

**2,4,7** Electrophysiological evidence of baroreceptor input to area postrema
*S. Papas and A. V. Ferguson* R9

**3,9,10** Meal-related and rhythmic drinking: effects of abolition of rat's eating rhythm
*R. F. Johnson and A. K. Johnson* R14

**2,4** Renal denervation does not prevent hypertension in Lyon hypertensive rats
*E. H. Boussairi, C. Julien, M. Ducher, C. Barres, M. Vincent, and J. Sassard* R20

**4,5** Antagonism of endotoxic glucose dyshomeostasis by protein kinase C inhibitors
*H. Inaba and J. P. Filkins* R26

**1,6,11** Release of inhibitory neurotransmitters in response to anoxia in turtle brain
*G. E. Nilsson and P. L. Lutz* R32

**2,9,5** Effect of suckling on gastric motility in lactating rats
*D. L. Helmreich, E. Thiels, A. F. Sved, J. G. Verbalis, and E. M. Stricker* R38

**2,4,8** Neurons in rabbit caudal ventrolateral medulla inhibit bulbospinal barosensitive neurons in rostral medulla
*Y.-W. Li, Z. J. Gieroba, R. M. McAllen, and W. W. Blessing* R44

**7,9,3** High dietary sodium enhances gustatory nerve activity and behavioral responses to NaCl
*T. W. Priehs, K. J. Mooney, and R. A. Bernard* R52

**3,5,9** Naltrexone, an opioid blocker, alters taste perception and nutrient intake in humans
*M. Bertino, G. K. Beauchamp, and K. Engelman* R59

**2,5,9** Integration of vagal afferent responses to gastric loads and cholecystokinin in rats
*G. J. Schwartz, P. R. McHugh, and T. H. Moran* R64

**2,5,9** $\mu$-Receptor mediates elevated glucose and corticosterone after third ventricle injection of opioid peptides
*M. W. Gunion, M. J. Rosenthal, J. E. Morley, S. Miller, B. Zib, B. Butler, and R. D. Moore* R70

**1** Tetrahydrofolic acid as the principal congener of plasma folates in pigs
*M. Natsuhori, M. Shimoda, E.-I. Kokue, T. Hayama, and Y. Takahashi* R82

**2,7,12** Movement of cellular ions during stimulation with isoproterenol in simian eccrine clear cells
*K. T. Sato, K. Saga, M. Ohtsuyama, T. Takemura, W. H. Kang, F. Sato, Y. Suzuki, and K. Sato* R87

**9,6** Carrier-mediated mechanism for biotin transport in rabbit intestine: studies with brush-border membrane vesicles
*H. M. Said and I. Derweesh* R94

**7** Lactate metabolism in inactive skeletal muscle during lactacidosis
*E. R. Chin, M. I. Lindinger, and G. J. F. Heigenhauser* R98

**5** Enhancement of tumor proteolysis by TNF-$\alpha$: correlation of in vivo isotope estimates with growth
*N. W. Istfan, P. R. Ling, G. L. Blackburn, and B. R. Bistrian* R106

**1,7,8** Effect of water restriction during growth and adulthood on kidney morphology of bobwhite quail
*D. L. Goldstein and C. C. Ellis* R117

1,12 Normalized input impedance and arterial decay time over heart period are independent of animal size
*N. Westerhof and G. Elzinga* R126

1,4,12 Resumption of physiological functions in the wood frog (*Rana sylvatica*) after freezing
*J. R. Layne, Jr. and M. C. First* R134

7,4 Excitatory pathways in smooth muscle investigated by phase-plot analysis of isometric force development
*G. A. van Koeveringe and R. van Mastrigt* R138

1,4 Tissue- and species-specific differences in ligand binding to thromboxane $A_2$ receptors
*G. W. Dorn II* R145

3,5,9 Hepatic portal glucagon infusion decreases spontaneous meal size in rats
*J. Le Sauter and N. Geary* R154

3,5,9 Hepatic portal infusion of glucagon antibodies increases spontaneous meal size in rats
*J. Le Sauter, U. Noh, and N. Geary* R162

5,7,9 Reduced osmotic thirst in healthy elderly men
*P. A. Phillips, M. Bretherton, C. I. Johnston, and L. Gray* R166

4,3 Integrating behavior and cardiovascular responses: the code
*C. A. Astley, O. A. Smith, R. D. Ray, E. V. Golanov, M. A. Chesney, V. G. Chalyan, D. J. Taylor, and D. M. Bowden* R172

4 Hemodynamic effects of endothelin-1 on ovine fetal pulmonary circulation
*B. A. Chatfield, I. F. McMurtry, S. L. Hall, and S. H. Abman* R182

4,7,5 Renal, hormonal, and fluid shift responses to ANP during head-out water immersion in awake dogs
*J. A. Krasney, M. Carroll, E. Krasney, J. Iwamoto, J. R. Claybaugh, and S. K. Hong* R188

1,3,12 Sleep deprivation in rats: effects on EEG power spectra, vigilance states, and cortical temperature
*P. Franken, D.-J. Dijk, I. Tobler, and A. A. Borbély* R198

5,2,4 Characterization and development of angiotensin II receptor subtypes ($AT_1$ and $AT_2$) in rat brain
*K. Tsutsumi and J. M. Saavedra* R209

2,3,9 Cholecystokinin in nucleus tractus solitarii modulates tonic and phasic gastric pressure
*W. T. Talman, K. Andreasen, J. Calvin, and S. Eversmann-Johanns* R217

5,4,7 Effect of ovariectomy on vasopressin, ACTH, and renin activity responses to hypotension
*M. Keller-Wood and C. E. Wood* R223

7,5,1 Control of renal handling of potassium loads in ducks with active salt glands
*E. Simon and D. A. Gray* R231

1,6,11 Acid-base regulation in exercising squid (*Illex illecebrosus, Loligo pealei*)
*H. O. Pörtner, D. M. Webber, R. G. Boutilier, and R. K. O'Dor* R239

## MODELING IN PHYSIOLOGY

5,7 Mathematical analysis of perifusion data: models predicting elution concentration
*W. R. Smith, G. C. Wake, J. E. A. McIntosh, R. P. McIntosh, M. Pettigrew, and R. Kao* R247

## RAPID COMMUNICATIONS

4,7 Evidence for metalloprotease involvement in the in vivo effects of big endothelin 1
*D. M. Pollock and T. J. Opgenorth* R257

## No. 2. AUGUST 1991

CATEGORY

4,6 Pentobarbital produces dissimilar changes in glucose influx and utilization in brain
*T. Otsuka, L. Wei, D. Bereczki, V. Acuff, C. Patlak, and J. Fenstermacher* R265

3,5,7 Sympathetic nerve activity and renal responses during continuous negative-pressure breathing in humans
*H. Tanaka, S. Sagawa, K. Miki, F. Tajima, B. J. Freund, J. R. Claybaugh, and K. Shiraki* R276

9,2 2,5-Anhydro-D-mannitol acts in liver to initiate feeding
*M. G. Tordoff, N. Rawson, and M. I. Friedman* R283

7,9 Physiological consequences of NaCl ingestion by $Na^+$-depleted rats
*M. G. Tordoff, S. J. Fluharty, and J. Schulkin* R289

2,4,7 Arterial baroreflex control of cardiac and renal sympathetic nerve activities is uniform in frequency domain
*S. Harada, S.-I. Ando, T. Imaizumi, Y. Hirooka, K. Sunagawa, and A. Takeshita* R296

2,12 Activation of brown adipose tissue thermogenesis in recovery from anesthetic hypothermia in rats
*Y. Shimizu and M. Saito* R301

2,4 Hemodynamic defense response to thyrotropin-releasing hormone injected into medial preoptic nucleus in rats
*A.-L. Sirén, S. Vonhof, and G. Feurerstein* R305

9,3,10 Intravenous nutrient-induced satiety depends on feeding-related gut signals
*E. K. Walls, A. E. Willing, and H. S. Koopmans* R313

4 Endothelium-derived relaxing factor in the regulation of basal cardiopulmonary and renal function
*M. A. Perrella, F. L. Hildebrand, Jr., K. B. Margulies, and J. C. Burnett, Jr.* R323

3,9 Amiloride sensitivity of chorda tympani response to NaCl in Fischer 344 and Wistar rats
*I. L. Bernstein, A. Longley, and E. M. Taylor* R329

9,10 Drinking after osmotic challenge depends on circadian phase in rats with free-running rhythms
*R. F. Johnson and A. K. Johnson* R334

9 Influence of fatty acid oxidation in lateral hypothalamus on food intake and body composition
*J. L. Beverly and R. J. Martin* R339

11,2 Morphine-induced stimulation of fetal breathing: role of $\mu_1$-receptors and central muscarinic pathways
*H. H. Szeto, P. Y. Cheng, G. Dwyer, J. A. Decena, D.-L. Wu, and Y. Cheng* R344

6,11,8 Association between decreased splenic ATP levels and immunodepression: amelioration with ATP-$MgCl_2$
*D. R. Meldrum, A. Ayala, P. Wang, W. Ertel, and I. H. Chaudry* R351

5,7 Pethidine (meperidine) inhibition of oxytocin secretion and action in parturient rats
*J. A. Russell, G. Leng, J. E. Coombes, S. A. Crockett, A. J. Douglas, I. Murray, and S. Way* R358

7 Sodium-dependent magnesium transport across in situ perfused rat placenta
*A. J. Shaw, M. Z. Mughal, M. J. A. Maresh, and C. P. Sibley* R369

2,4,12 Loss of integrative control of peripheral circulation during desynchronized sleep
*T. Cianci, G. Zoccoli, P. Lenzi, and C. Franzini* R373

2,12 Microdialysis of norepinephrine into preoptic area of guinea pigs: characteristics of hypothermic effect
*N. Quan, L. Xin, and C. M. Blatteis* R378

4 Myocardial aging: antioxidant enzyme systems and related biochemical properties
*L. L. Ji, D. Dillon, and E. Wu* R386

2,4,10 A5 noradrenergic unit activity and sympathetic nerve discharge in rats
*D. Huangfu, N. Koshiya, and P. G. Guyenet* R393

5,2,12 Developmental changes in adenylyl cyclase and GTP binding proteins in brown fat
*A. Chaudhry and J. G. Granneman* R403

9,2,6 Fetal fluid responses to long-term 5 M NaCl infusion: where does all the salt go?
*T. L. Powell and R. A. Brace* R412

7,4,5 Interactions between brain acetylcholine and prostaglandins in control of vasopressin release
*M. Inoue, J. T. Crofton, and L. Share* R420

2,4 Interaction of hypothalamic $GABA_A$ and excitatory amino acid receptors controlling heart rate in rats
*R. P. Soltis and J. A. DiMicco* R427

2,4,7 Functional evidence for sympathetic nerve activity in conscious cervical spinal rats
*K. A. Trostel, S. A. Katz, and J. W. Osborn* R434

4,5,12 Comparison between effects of interleukin-1α administration and sublethal endotoxemia in primates
*E. Fischer, M. A. Marano, A. E. Barber, A. Hudson, K. Lee, C. S. Rock, A. S. Hawes, R. C. Thompson, T. J. Hayes, T. D. Anderson, W. R. Benjamin, S. F. Lowry, and L. L. Moldawer* R442

5 Natriuretic peptides inhibit rat astroglial proliferation: mediation by C receptor
*E. R. Levin and H. J. L. Frank* R453

4 Developmental changes in ovine cerebral artery composition and reactivity
*W. J. Pearce, A. D. Hull, D. M. Long, and L. D. Longo* R458

7 Endometrial transport generates the maternal-fetal electrical potential difference in guinea pigs
*T. G. McNaughton, L. A. Power, R. D. Gilbert, and G. G. Power* R466

2,4,5 Angiotensin II does not contribute to rapid reflex control of arterial pressure
*D. R. Brown, J. D. Yingling, D. C. Randall, H. M. Aral, J. M. Evans, J. B. Charles, C. F. Knapp, R. Raisch, and C. E. Ott* R473

4,7 Regional blood-brain barrier transport of cationized bovine serum albumin in awake rats
*M. Shimon-Hophy, K. C. Wadhwani, K. Chandrasekaran, D. Larson, Q. R. Smith, and S. I. Rapoport* R478

5,7 Activation of renal mechanoreceptors increases vasopressin release in rabbits
*A. Yamamoto, L. C. Keil, and I. A. Reid* R484

3,10 Phase response curves to light in young and old hamsters
*R. S. Rosenberg, P. C. Zee, and F. W. Turek* R491

1,3 Characterization of electroencephalographic state in fetal baboons
*R. I. Stark, J. Haiken, D. Nordli, and M. M. Myers* R496

5,12 Glucagon in physiological concentrations stimulates brown fat thermogenesis in vivo
*C. J. Billington, J. E. Briggs, J. G. Link, and A. S. Levine* R501

1 DNA synthesis is reduced in selected fetal tissues during prolonged hypoxemia
*S. B. Hooper, A. D. Bocking, S. White, J. R. G. Challis, and V. K. M. Han* R508

## LETTERS TO THE EDITOR

Failure to demonstrate that accelerated gastric emptying after VMH lesions is secondary to excess weight gain
*J. P. Dugan and D. A. Booth; H. P. Weingarten, R. M. Black, and K. L. Conover* R515

## ANNOUNCEMENTS

R518

## No. 3. SEPTEMBER 1991

CATEGORY

4 Similar pressure pulse propagation and reflection characteristics in aortas of mammals
*J. K.-J. Li and A. Noordergraaf* R519

1,12,6 Thermoregulation, growth, and reproduction in Alaskan collared lemmings: role of short day and cold
*H. A. Maier and D. D. Feist* R522

5,9 Effects of pylorectomy on cholecystokinin-induced inhibition of liquid gastric emptying
*T. H. Moran, R. J. Crosby, and P. R. McHugh* R531

6,7 Skeletal muscle amino acid and myofibrillar protein mRNA response to thermal injury and infection
*Y. Fong, J. P. Minei, M. A. Marano, L. L. Moldawer, H. Wei, G. T. Shires, III, G. T. Shires, and S. F. Lowry* R536

5 Bradykinin-induced prostaglandin synthesis is enhanced in keratinocytes and fibroblasts by UV injury
*A. P. Pentland and S. C. Jacobs* R543

5,9 Normal food intake and growth in hyperprolactinemic rats
*R. A. Adler and R. J. Krieg, Jr.* R548

1,7,4 Renal tubular function in horses during submaximal exercise
*K. H. McKeever, K. W. Hinchcliff, L. M. Schmall, and W. W. Muir, III* R553

1,6,11 Development of mammalian endothermic metabolism: quantitative changes in tissue mitochondria
*A. J. Hulbert, W. Mantaj, and P. A. Janssens* R561

9 Patterns of duodenal osmolality in young pigs fed solid food
*T. R. Houpt* R569

4,7 $\alpha_1$-Adrenergic receptor blockade reduces afferent and efferent glomerular arteriolar resistances in SHR
*K. Uchino, T. Nishikimi, and E. D. Frohlich* R576

4,1 Endothelin action on cerebral circulation in unanesthetized goats
*J. L. García, B. Gómez, L. Monge, A. L. García-Villalón, and G. Diéguez* R581

3,9 Neuropeptide regulation of feeding in dogs
*A. Inui, M. Okita, M. Nakajima, T. Inoue, N. Sakatani, M. Oya, H. Morioka, Y. Okimura, K. Chihara, and S. Baba* R588

4,7 Pressure natriuresis and cortical and papillary blood flow in inbred Dahl rats
*R. J. Roman and M. Kaldunski* R595

3,7,9 Selective effects of sodium and chloride depletion on salt appetite in rats
*M. Muntzel, B. Pouzet, B. Lacour, T. Hannedouche, and T. Drüeke* R603

5 Insulin suppression is associated with hypersomatostatinemia and hyperglucagonemia in glucose-injected rainbow trout
*J. S. Harmon, C. D. Eilertson, M. A. Sheridan, and E. M. Plisetskaya* R609

3,9 Satiating effect of bombesin is mediated by receptors perfused by celiac artery
*T. C. Kirkham, J. Gibbs, and G. P. Smith* R614

7,4 Role of intrarenal angiotensin II in mediating renal response to volume expansion
*J. M. Pinilla, M. C. Perez, I. Hernandez, T. Quesada, J. Garcia-Estañ, and F. J. Salazar* R619

12 Allometry of cooling, supercooling, and freezing in the freeze-tolerant turtle *Chrysemys picta*
*D. L. Claussen and P. A. Zani* R626

4 Heterogeneous binding sites for $\alpha$-atrial natriuretic peptide in human umbilical cord and placenta
*S. P. Salas, R. F. Power, A. Singleton, J. Wharton, J. M. Polak, and J. Brown* R633

1,9 Role of solitarial GABAergic mechanisms in control of swallowing
*Y. T. Wang and D. Bieger* R639

7,3,4 Hypothalamic lesions increase saline ingestion induced by injection of angiotensin II into AV3V in rats
*L. A. De Arruda Camargo, W. A. Saad, A. Renzi, L. A. De Luca, Jr., J. R. Gonçalves, and J. V. Menani* R647

1,7 Intracellular pH regulation in trout urinary bladder epithelium: $Na^+$-$H^+(NH_4^+)$ exchange
*W. S. Marshall and S. E. Bryson* R652

9,3 Differential feeding responses to bacterial lipopolysaccharide and muramyl dipeptide
*W. Langhans, G. Balkowski, and D. Savoldelli* R659

5,7 Effect of $V_2$ antagonist on clearance of arginine vasopressin by isolated perfused rat kidneys
*R. Keeler, A. K. Sato, J. R. Claybaugh, and N. Wilson* R665

10,3 Circadian characteristics of Djungarian hamsters: effects of photoperiodic pretreatment and artificial selection
*W. Puchalski and G. R. Lynch* R670

4 Role of vasopressin in acutely altered baroreflex sensitivity during hemorrhage in rats
*B. L. Brizzee, R. D. Russ, and B. R. Walker* R677

1,7 Role of circulation in maintaining $Na^+$ and $K^+$ concentration in pelvic patch in *Rana catesbeiana*
*R. H. Parsons and R. Schwartz* R686

2,4,5 Effects of intravenous infusions of angiotensin II on muscle sympathetic nerve activity in humans
*T. Matsukawa, E. Gotoh, K. Minamisawa, M. Kihara, S.-I. Ueda, H. Shionoiri, and M. Ishii* R690

8,5,1 Gestational maturation of placental glucose transfer capacity in sheep
*R. D. Molina, G. Meschia, F. C. Battaglia, and W. W. Hay, Jr.* R697

3,12 Dynamics of behavioral thermoregulation in the rat
*C. J. Gordon, K.-L. A. Lee, T.-L. A. Chen, P. Killough, and J. S. Ali* R705

7,4,2 Reduced renal responses to an acute saline load in obese Zucker rats
*D. W. Zeigler and K. P. Patel* R712

7,8,6 Contribution of renal medullary mitochondrial density to urinary concentrating ability in mammals
*S. Abrahams, L. Greenwald, and D. L. Stetson* R719

2 Medial medullary contribution to tonic descending inhibition of visceral input
*I. L. Holt, E. W. Akeyson, and M. M. Knuepfer* R727

11,2,3 Cholinergic reticular mechanisms influence state-dependent ventilatory response to hypercapnia
*R. Lydic, H. A. Baghdoyan, R. Wertz, and D. P. White* R738

## SPECIAL COMMUNICATIONS

11,2,3 Defining origin of positive slope in hypercapnic ventilatory response curve
*Z. Lorinc, J. Derr, M. Snider, and R. Lydic* R747

6,1,7 Measuring the lipid content of live animals using cyclopropane gas
*B. T. Henen* R752

1,7 Carbonic acid buffer species measured in real time with an intracellular microelectrode array
*K. Wietasch and R. P. Kraig* R760

## RAPID COMMUNICATIONS

11,2,3 Microdialysis of cat pons reveals enhanced acetylcholine release during state-dependent respiratory depression
*R. Lydic, H. A. Baghdoyan, and Z. Lorinc* R766

## No. 4. OCTOBER 1991

CATEGORY

## EDITORIAL REVIEW

7 Adaptations to chloride-depletion alkalosis
*J. H. Galla, J. D. Gifford, R. G. Luke, and L. Rome* R771

1,16,12 BAY K 8644 and nifedipine alter halothane but not caffeine contractures of malignant hyperthermic muscle fibers
*J. H. Williams, M. Holland, J. C. Lee, C. W. Ward, and C. J. McGrath* R782

2,3,9 Defective cerebral glucose utilization in diet-induced obese rats
*B. E. Levin* R787

1,9 Dietary regulation of intestinal brush-border sugar and amino acid transport in carnivores
*R. K. Buddington, J. W. Chen, and J. M. Diamond* R793

2,4,7 Pressure diuresis and autonomic function in conscious dogs
*P. H. Brand, K. B. Coyne, K. A. Kostrzewski, D. Shier, P. J. Metting, and S. L. Britton* R802

1,8 Changes in small intestinal mucosa morphology and cell renewal in suckling, prolonged-suckling, and weaned lambs
*D. Attaix and J.-C. Meslin* R811

3,10 Restricted feeding entrains circadian wheel-running activity rhythms of the kowari
*G. A. Kennedy, G. J. Coleman, and S. M. Armstrong* R819

4 Prostanoids attenuate pial arteriolar dilation induced by cortical spreading depression in rabbits
*M. Shibata, C. W. Leffler, and D. W. Busija* R828

4,7 Effect of acute renal denervation and ANF on renal function in adult spontaneously hypertensive rats
*D. M. Pollock and W. J. Arendshorst* R835

10,12 Diurnal responses of mammals to acute exposure to a hyperdynamic environment
*C. A. Fuller, D. W. Griffin, and J. M. Horowitz* R842

4,7,9 Dietary obesity and weight cycling in rats: a model of stress-induced hypertension?
*R. J. Contreras, S. King, L. Rives, A. Williams, and T. Wattleton* R848

4,5,7 Atrial natriuretic peptide and renal cGMP in rats with experimental heart failure
*Z. Abassi, J. C. Burnett, Jr., E. Grushka, A. Hoffman, A. Haramati, and J. Winaver* R858

1,8 Studies on binding sites, contents, and effects of AVP in isolated bladder and urethra from rabbits and humans
*F. Holmquist, S. Lundin, B. Larsson, H. Hedlund, and K.-E. Andersson* R865

2,9 Adrenal sympathetic nerve activity in response to hypothalamic injections of 2-deoxy-D-glucose
*H. Yoshimatsu, M. Egawa, and G. A. Bray* R875

5 Insulin sensitivity and liver insulin receptor structure in ducks from two genera
*T. Constans, B. Chevalier, M. Derouet, and J. Simon* R882

5 $\beta$-Adrenergic blockade and lipoprotein lipase activity in rat tissues after acute exercise
*A. Paulin, J. Lalonde, and Y. Deshaies* R891

7,8 Active urea transport independent of $H^+$ and $Na^+$ transport in frog skin epithelium
*I. Lacoste, S. Dunel-Erb, B. J. Harvey, P. Laurent, and J. Ehrenfeld* R898

4 Influence of splenectomy on hemodynamics during cardiac tamponade
*B. D. Hoit, M. Gabel, and N. O. Fowler* R907

5 Zucker and Wistar diabetic fatty rats show different response to adrenalectomy
*I. J. Turkenkopf, R. A. Kava, A. Feldweg, C. Horowitz, M. R. C. Greenwood, and P. R. Johnson* R912

2,4 Ontogeny of canine intrathoracic cardiac nervous system
*C. Haddad and J. A. Armour* R920

10 Regularly scheduled voluntary exercise synchronizes the mouse circadian clock
*D. M. Edgar and W. C. Dement* R928

4 Peripheral vascular resistance and regional blood flows in hypertensive Dahl rats
*M. A. Boegehold, L. J. Huffman, and G. A. Hedge* R934

5,10 Ultradian variations of chromogranin A in humans
*M. A. Takiyyuddin, H. P. H. Neumann, J. H. Cervenka, B. Kennedy, T. Q. Dinh, M. G. Ziegler, A. D. Baron, and D. T. O'Connor* R939

2,3,4 The interactive effects of dietary sodium chloride and calcium on cardiovascular stress responses
*K. E. Scrogin, D. C. Hatton, and D. A. McCarron* R945

2,4,5 Comparison of carotid baroreflex control of plasma AVP concentration in conscious and anesthetized dogs
*K. E. Wehberg, G. J. Gala, and M. J. Brunner* R950

2,4,5 Vasopressin-induced bradycardia in barodenervated rats
*B. L. Brizzee, E. M. Adams, and B. R. Walker* R957

6,11 Evaluation of the role of cellular hypoxia in sepsis by the hypoxic marker [$^{18}$F]fluoromisonidazole
*R. S. Hotchkiss, R. S. Rust, C. S. Dence, T. H. Wasserman, S.-K. Song, D.-R. Hwang, I. E. Karl, and M. J. Welch* R965

3,5,10 Olfactory bulbectomy lengthens circadian period of locomotor activity in golden hamsters
*D. R. Pieper and C. A. Lobocki* R973

8,2,4 Hypertrophy of stellate ganglion cells in hypertensive, but not hyperactive, rats
*D. Peruzzi, E. D. Hendley, and C. J. Forehand* R979

4,2,10 Differentiation of two cardiovascular regions within caudal ventrolateral medulla
*S. L. Cravo, S. F. Morrison, and D. J. Reis* R985

5 Corticotropin-releasing factor in the ovine fetus and pregnant ewe: role of placenta
*M. Keller-Wood and C. E. Wood* R995

5,1 Albumin enhances negative feedback effect of cortisol on ACTH release from sheep pituitary cells
*R. J. Kemppainen, C. A. Zerbe, and J. L. Sartin* R1003

7 Mercury from dental "silver" tooth fillings impairs sheep kidney function
*N. D. Boyd, H. Benediktsson, M. J. Vimy, D. E. Hooper, and F. L. Lorscheider* R1010

4,7,10 Diurnal rhythms in fetal urine flow, vascular pressures, and heart rate in sheep
*R. A. Brace and T. R. Moore* R1015

4,5 Progesterone and modulation of endothelium-dependent responses in canine coronary arteries
*V. M. Miller and P. M. Vanhoutte* R1022

5,7 Vasopressin and oxytocin secretion in chronically hyposmolar rats
*J. G. Verbalis and J. Dohanics* R1028

3,7,9 Enhanced drinking after excitotoxic lesions of the parabrachial nucleus in the rat
*G. L. Edwards and A. K. Johnson* R1039

4,1,5 Blood pressure maintenance in hypertensive sympathectomized rats. I. Adrenal medullary catecholamines
*M. Lo, C. Julien, C. Barres, F. Boomsma, C. Cerutti, M. Vincent, and J. Sassard* R1045

4,1,5 Blood pressure maintenance in hypertensive sympathectomized rats. II. Renin-angiotensin system and vasopressin
*M. Lo, C. Julien, C. Barres, I. Medeiros, A.-M. Allevard, M. Vincent, and J. Sassard* R1052

## RAPID COMMUNICATIONS

6,1,11 The adenosine receptor blocker aminophylline increases anoxic ethanol excretion in crucian carp
*G. E. Nilsson* R1057

## No. 5. NOVEMBER 1991

CATEGORY

2,4,5 Sympathoadrenal-circulatory regulation during sustained isometric exercise in young and older men
*J. A. Taylor, G. A. Hand, D. G. Johnson, and D. R. Seals* R1061

2,4,7 Antihypertensive effect of dietary calcium loading in angiotensin II-salt rats
*K. Ando, Y. Sato, A. Ono, K. Takahashi, T. Shimosawa, E. Ogata, and T. Fujita* R1070

4,1 Chronic anemia in pregnant ewes: maternal and fetal effects
*D. Mostello, C. Chalk, J. Khoury, C. E. Mack, T. A. Siddiqi, and K. E. Clark* R1075

3,9 Enhanced acceptance and metabolism of fats by rats fed a high-fat diet
*D. R. Reed, M. G. Tordoff, and M. I. Friedman* R1084

1 Regression of high-affinity carrier-mediated intestinal transport of taurine in adult cats
*S. Wolffram, C. Hagemann, and E. Scharrer* R1089

12,2 Differential effects of cytokines on thermosensitive neurons in guinea pig preoptic area slices
*M. Shibata and C. M. Blatteis* R1096

2,5,12 ACTH response in rats during biphasic fever induced by interleukin-1
*T. Watanabe, A. Morimoto, and N. Murakami* R1104

**3,10** Phase-shifting effects of acute increases in activity on circadian locomotor rhythms in hamsters
*C. R. Wickland and F. W. Turek* R1109

**4,5,7** Effects of vasopressin on arterial blood pressure and cardiac output in male and female rats
*K. Toba, J. T. Crofton, M. Inoue, and L. Share* R1118

**4,7** Effects of central and intravascular angiotensin I and II on the choroid plexus
*M. A. Maktabi, D. D. Heistad, and F. M. Faraci* R1126

**4,2,12** Plasma profiles of IL-6-like and TNF-like activities in brain-dead dogs
*T. S. Huber, M. J. Kluger, S. P. Harris, and L. G. D'Alecy* R1133

**2,3,9** Gastric loads potentiate inhibition of food intake produced by a cholecystokinin analogue
*G. J. Schwartz, L. A. Netterville, P. R. McHugh, and T. H. Moran* R1141

**2,4,11** Respiratory modulation of sympathetic activity in neonatal swine
*P. M. Gootman, M. R. Gandhi, A. M. Steele, B. W. Hundley, H. L. Cohen, L. P. Eberle, and A. L. Sica* R1147

**7,1** Taurine secretion in cultured winter flounder renal epithelium
*D. F. Perlman, J. L. Renfro, and L. Goldstein* R1155

**4,5** Effects of pregnancy, estradiol, and progesterone on pressor responsiveness to angiotensin II
*K. Novak and S. Kaufman* R1164

**7,9,12** Thermal dehydration-induced thirst in rats: role of angiotensin II
*C. C. Barney, J. S. Williams, and D. H. Kuiper* R1171

**4,5,7** Hormonal and circulatory responses to chronically controlled increments in right atrial pressure
*Y. Shin, T. E. Lohmeier, R. L. Hester, S. D. Kivlighn, and M. J. Smith, Jr.* R1176

**11** Oxygen pressure-dependent control of carbonic anhydrase synthesis in chick embryonic erythrocytes
*D. Million, P. Zillner, and R. Baumann* R1188

**2,4,7** Renal nerves and postprandial renal excretion in the conscious monkey
*T. V. Peterson, B. A. Benjamin, N. L. Hurst, and C. G. Euler* R1197

**1,7** Changes in soluble carbonic anhydrase activity in response to maturation and $NH_4Cl$ loading in the rabbit
*L. P. Brion, B. J. Zavilowitz, O. Rosen, and G. J. Schwartz* R1204

**1,6** Disuse atrophy in the hibernating golden-mantled ground squirrel, *Spermophilus lateralis*
*S. J. Wickler, D. F. Hoyt, and F. van Breukelen* R1214

**11,12,4** Characteristics of the anion transport system in sea turtle erythrocytes
*E. K. Stabenau, C. G. Vanoye, and T. A. Heming* R1218

**5,7,9** Mechanism of drinking-induced inhibition of vasopressin secretion in dehydrated dogs
*B. H. Appelgren, T. N. Thrasher, L. C. Keil, and D. J. Ramsay* R1226

**2,3,5** Sexual function and neuropeptide Y levels in selected brain regions in male spontaneously hypertensive rats
*J. T. Clark, A. Sahu, J. J. Mrotek, and S. P. Kalra* R1234

**7,4,5** Modulation of vasopressin antidiuretic action by $\alpha_2$-adrenoceptors is species specific
*D. P. Brooks, M. Gellai, P. D. DePalma, and R. M. Edwards* R1242

**4,2** Responses of sympathetic preganglionic neurons to rostral ventrolateral medullary stimulation
*S. F. Morrison and D. J. Reis* R1247

**2,5,10** Synchronous ultradian rhythms in adrenocortical secretion detected by microdialysis in awake rats
*M. S. Jasper and W. C. Engeland* R1257

**2,4** $\beta_1$- and $\beta_2$-adrenoceptor subtypes in canine intrathoracic efferent sympathetic nervous system regulating the heart
*W. Watson-Wright, G. Boudreau, R. Cardinal, and J. A. Armour* R1269

**3** A model for the study of sexual function in anesthetized male and female rats
*K. E. McKenna, S. K. Chung, and K. T. McVary* R1276

**4,11** Cardiovascular and pulmonary effects of morphine in conscious pigs
*J. P. Hannon and C. A. Bossone* R1286

7 Is fetal acidosis in the human fetus maternogenic during labor? A reanalysis
*F. Piquard, A. Schaefer, P. Dellenbach, and P. Haberey* R1294

5 Effects of thyroidectomy on development of skeletal muscle in fetal sheep
*D. I. Finkelstein, P. Andrianakis, A. R. Luff, and D. Walker* R1300

2,5 Static muscle contraction reflexly increases adrenal sympathetic nerve activity in rats
*J. Vissing, L. B. Wilson, J. H. Mitchell, and R. G. Victor* R1307

**SPECIAL COMMUNICATIONS**

7,9,4 Measurement of D-xylose gut absorptive capacity in conscious rats
*G. Singh, K. I. Chaudry, L. C. Chudler, P. J. O'Neill, and I. H. Chaudry* R1313

*D. C. Jackson, J. H. Singer, and P. T. Downey* R1325

## No. 6. DECEMBER 1991

CATEGORY

**EDITORIAL REVIEW**

7 Comparative insights into the mechanisms of renal organic anion and cation secretion
*J. B. Pritchard and D. S. Miller* R1329

1,5 Catecholamine stimulation of hepatic glycogenolysis during anoxia in the turtle *Chrysemys picta*
*K. M. Keiver and P. W. Hochachka* R1341

1,7,12 Freeze-thaw injury in erythrocytes of the freeze-tolerant wood frog, *Rana sylvatica*
*J. P. Costanzo and R. E. Lee, Jr.* R1346

2,5 Glucose increases rat plasma norepinephrine levels by direct action on the brain
*B. E. Levin* R1351

12 Role of gram-negative and gram-positive gastrointestinal flora in temperature regulation of mice
*C. A. Conn, B. Franklin, R. Freter, and M. J. Kluger* R1358

1,4,5 Role of adrenal catecholamines during forced submergence in ducks
*A. M. A. Lacombe and D. R. Jones* R1364

5 Response of muscle protein synthesis to fasting in suckling and weaned rats
*T. A. Davis, M. L. Fiorotto, H. V. Nguyen, D. G. Burrin, and P. J. Reeds* R1373

5,7,9 Intraruminal rehydration of ovine fetuses
*M. G. Ross, D. J. Sherman, M. G. Ervin, and L. Day* R1381

9,6,5 Regulation of food intake and body weight in rats by the synthetic heme analogue cobalt protoporphyrin
*R. A. Galbraith and A. Kappas* R1388

9,5,4 Intracerebroventricular administration of cobalt protoporphyrin elicits prolonged weight reduction in rats
*R. A. Galbraith and A. Kappas* R1395

12 Differential temperature dependence of taste nerve responses to various taste stimuli in dogs and rats
*M. Nakamura and K. Kurihara* R1402

9,3,6 Elevations of plasma glucose do not support taste-to-postingestive consequence learning
*S. E. Gowans and H. P. Weingarten* R1409

2,4,6 Heart rate variability as a measure of autonomic function during weight change in humans
*J. Hirsch, R. L. Leibel, R. Mackintosh, and A. Aguirre* R1418

**5,7,10** Low salt mimics effects of dark pulses on circadian pacemaker in cultured chick pineal cells
*M. Zatz and H.-M. Wang* R1424

**2,4,5** Mechanisms involved in the rapid dissipation of plasma epinephrine response to bacterial endotoxin in conscious rats
*M. Qi, Z. Z. Zhou, R. D. Wurster, and S. B. Jones* R1431

**1,6,12** Nonshivering thermogenesis in king penguin chicks. I. Role of skeletal muscle
*C. Duchamp, H. Barré, J.-L. Rouanet, A. Lanni, F. Cohen-Adad, G. Berne, and P. Brebion* R1438

**1,6,12** Nonshivering thermogenesis in king penguin chicks. II. Effect of fasting
*C. Duchamp, H. Barré, J.-L. Rouanet, A. Lanni, F. Cohen-Adad, G. Berne, and P. Brebion* R1446

**2,4** Gene expression of tyrosine hydroxylase and neuropeptide Y in prevertebral ganglia of renal hypertensive rats
*T. L. Krukoff and Y. Zheng* R1455

**1,7** Development of passive permeability characteristics of rat placenta during the last third of gestation
*D. E. Atkinson, N. R. Robinson, and C. P. Sibley* R1461

**4** Dietary lipids modify receptor- and non-receptor-dependent components of $\alpha_1$-adrenoceptor-mediated contraction
*D. D. Hodgkin, R. J. Boucek, R. E. Purdy, W. J. Pearce, I. M. Fraser, and R. D. Gilbert* R1465

**7,6** Indirect coupling of organic anion secretion to sodium in teleost (*Paralichthys lethostigma*) renal tubules
*D. S. Miller and J. B. Pritchard* R1470

**1,7,8** Compartmental analysis and glomerular filtration in chick embryos
*M. J. Murphy, S. C. Brown, N. B. Clark, and J. Q. Feng* R1478

**2,4** Effect of desipramine on norepinephrine metabolism in humans: interaction with aging
*J. S. Stromberg, O. A. Linares, M. A. Supiano, M. J. Smith, A. H. Foster, and J. B. Halter* R1484

**1,7,8** Intracellular pH rises and astrocytes swell after portacaval anastomosis in rats
*M. S. Swain, A. T. Blei, R. F. Butterworth, and R. P. Kraig* R1491

**4,5,7** Role of angiotensin in ameliorating the renal actions of norepinephrine
*H. M. Yang and T. E. Lohmeier* R1497

**4,1,7** Increase in hepatic blood flow during early sepsis is due to increased portal blood flow
*P. Wang, Z. F. Ba, and I. H. Chaudry* R1507

**4,7** Inhibitory renorenal reflexes: a role for renal prostaglandins in activation of renal sensory receptors
*U. C. Kopp and L. A. Smith* R1513

**5,6** Inhibition of gluconeogenesis by extracellular ATP in isolated rat hepatocytes
*M. Asensi, A. Lopez-Rodas, J. Sastre, J. Viña, and J. M. Estrela* R1522

**6,7** κ-Opioid antagonist improves cellular bioenergetics and recovery after traumatic brain injury
*R. Vink, P. S. Portoghese, and A. I. Faden* R1527

**7,8,5** Aldosterone modulates electrogenic Cl secretion in the colon of the hen (*Gallus domesticus*)
*W. Clauss, V. Dantzer, and E. Skadhauge* R1533

**4** Hemodynamics and organ blood flow in fetal sheep subjected to chronic anemia
*L. E. Davis and A. R. Hohimer* R1542

**1,12** Glucose loading prevents freezing injury in rapidly cooled wood frogs
*J. P. Costanzo, R. E. Lee, Jr., and M. F. Wright* R1549

**3,5,9** Dietary fat, hypothalamic glutamate decarboxylase, and food intake of streptozotocin-diabetic rats
*J. L. Beverly, M. H. Oster, T. W. Castonguay, and J. S. Stern* R1554

**2** α-Chloralose alters autonomic reflex function of the lower urinary tract
*D. C. Rudy, J. W. Downie, and J. D. McAndrew* R1560

**1,7** Dietary modulation of intestinal nutrient transport in the teleost fish tilapia
*E. Titus, W. H. Karasov, and G. A. Ahearn* R1568

1,6,11 Oxygen consumption and sodium pump thermogenesis in a developing mammal
*P. L. Else* R1575

1,4,2 Neural and humoral effects on hindlimb vascular resistance of ducks during forced submergence
*A. M. A. Lacombe and D. R. Jones* R1579

*Subject Index to Volume 30* R1587
*Author Index to Volume 30* R1599

## CORRIGENDA

*Volume 260, February 1991*
*Volume 29, February 1991*

*Pages R413–R420*: Benjamin O. Anderson, Denis D. Bensard, James M. Brown, John E. Repine, Paul F. Shanley, Jonathan A. Leff, Lance S. Terada, Anirban Banerjee, and Alden H. Harken. "FNLP injures endotoxin-primed rat lung by neutrophil-dependent and -independent mechanisms." The symbol $\mu$ was inadvertently omitted in the printed paper, suggesting that the doses were $10^6$ times higher than the correct values. The correct doses were as follows: *Salmonella typhimurium* endotoxin, 500 $\mu$g/kg ip; FNLP, 250 $\mu$g/kg iv; and vinblastine, 750 $\mu$g/kg iv.
